

ABC International Missions involves projects and partnerships we have with people and organizations serving God overseas. As a church we are committed to regularly supporting this work through prayer, correspondence, gifts and financial contributions.

The Missions Team is responsible for maintaining our awareness of the needs of the workers on the ground and prompting ways in which we can continue to support and sponsor the work of International Missions. It excites us to think that by supporting International Missions we are ultimately partnering with God in the much bigger picture of what He is doing across His world.

We regularly support missionaries working with the following organizations:

In addition to support directly provided to these missionaries, ABC joins with the annual Baptist *Prayer and Self Denial* campaign to promote and further the work of Tranzsend.
